This rejection has not been accompanied, as yet, by any explanation of an extensive character, but by the next steamer, it is expected that a full statement of the views of the British government will be forwarded by Mr. Dallas.

The Reitish Minister, Lord Napise, has also received the same intelligence. It has much aconised him, as he has been predicting, ever those his arrival here, that his government would ofter no difficulties to the repection of the treaty.

There is a great deal of emitement at the White House and the State Department at this unexpected announcement of the rejection of the treaty by the British government. It was communicated to the other Legation without loss of time. The French Minister took the matter coolly, for he resum not to uniferation much about diplomable afform.
